

BREAK ROOMS

Harvard Pilgrim Health Care, Manchester

Designer: Stibler Associates, Manchester

The break room of this health insurance company takes full advantage of a sweeping view of the city. Its cool furnishings offer employees the option of lunching at tables or at a bar. The room uses locally sourced, sustainable materials, including woven tile flooring and a porcelain-and-glass mosaic backsplash, and bright colors, all to promote energy and wellness.

Dyn, Manchester

Designer: Dennis Mires Architects, Manchester

Dyn believes in working hard and playing hard. Its break room helps with the playing hard part with modern but comfy couches, bright beanbag chairs, a flat screen TV, a Nintendo Wii, foosball, ping pong, and large windows for plenty of natural light. It also leads to an outdoor patio.

WORKSPACE

36creative, Windham

This marketing company literally sees the writing on the walls and, in fact, encourages it. It turned a wall and ceiling into giant blackboards to help stimulate creative juices and provide a place to doodle when a break is needed.

NECESSARY ROOM

36creative, Windham

Inspiration can strike at any time. So 36creative plastered its commode walls with *LIFE Magazine* advertisements from the '40s to spark creativity.
