Breakfast of Champions: Celebrating School Business Partnerships

NH Scholars currently oversees more than 400 business volunteers who actively give their time to help public high schools in New Hampshire, through job shadowing, internships and mentoring. These men and women are a powerful force in the lives of young people; they are often the difference in helping students decide how to choose a career path. NH Scholars and the New Hampshire College & University Council will recognize these outstanding businesses and schools for successfully developing effective partnerships for the betterment of student progress.

In an effort to encourage new businesses and schools to get involved, NHCUC has invited business leaders to listen to a forum on best practices for mentoring students and effective ways to develop successful school/business partnerships.

Panel discussion includes Virginia Barry (Education Commissioner), Tom Raffio (President, Northeast Delta Dental), Fred Kocher (Coordinator, Coalition for Business & Education) and Maureen Curtiss (Director, Timken Aerospace). Moderating the panel will be Scott Spradling.

Champion Awards will be presented to Winnisquam Regional High School, ConVal Regional High School, Dyn Inc., Golden View Healthcare Center, Gateways Community Services, Belknap Economic Development Council, McGrath Associates, Cummings Financial, and Northeast Delta Dental.

WHAT: Breakfast of Champions Awards

WHO: NHCUC and New Hampshire Scholars
